

What is a business plan and why is it important?

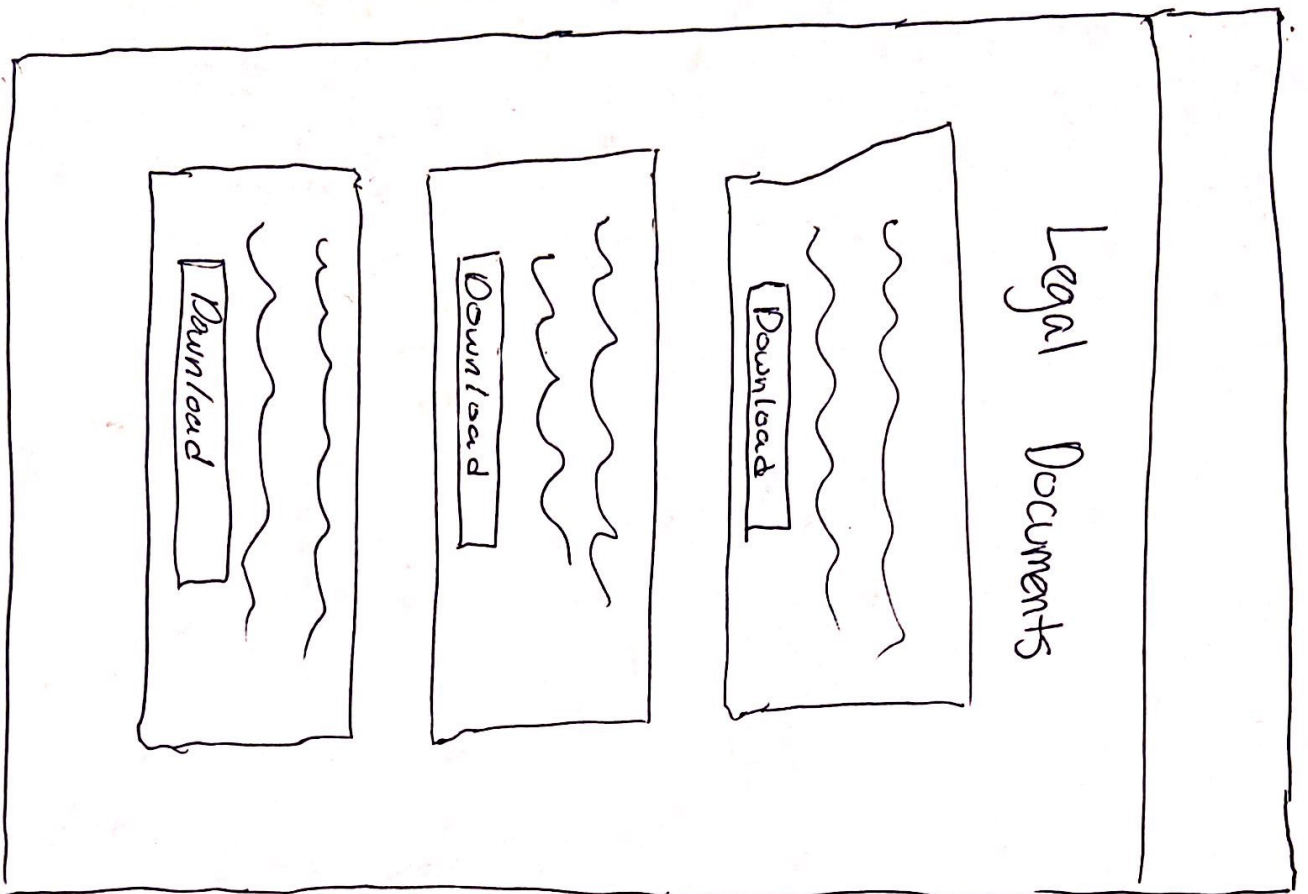

Business Plan Example

Business Plan Template

Create Business Plan

- Describe to users what a business plan is and why it's important when starting a business
- Provide a sample business plan so they will know what to do when creating theirs
- Provide link to business plan template to guide users through the process

Legal Documents

- Gives users a description of the legal document necessary for creating their business and provides a link to download them.

Business Idea

What will your business do?

Business Idea and Information

- Window asking user what their business will do and they select the arrow to continue. From there they will fill out their location, company name, whether they will have employees, and other important information about their company.
